Education

National Institute of Technology, Puducherry

Nov 2022 – April 2026

B.Tech in Electrical and Electronics Engineering with minor in AI&ML

- GPA: 8.87/10.0

Experience

BNP Paribas India Solution Private Limited

Jan 2026 – ongoing

Software Developer

- Migrated workflow processing from **Camunda BPM** to a custom manual workflow implementation with **SpringBoot**.
- Designed and implemented automated data pipelines using **Apache NiFi** for efficient data flow.

Skills

Languages: C, C++, JavaScript, Java

Web Technologies:

Frontend: React.js, Angular.js, Tailwind CSS, GSAP

Backend: Node.js, Express.js, SpringBoot

Database: MongoDB, MySQL, Redis, PostgreSQL, H2

Tools & Platforms: Git, GitHub, Jupyter Notebook, Streamlit, Postman, Docker, BitBucket

CS Fundamentals: Data Structures, Algorithms, Problem Solving, OOPS, DBMS

Projects

College Thrift

[Link](#)

- Designed and built a specialized e-commerce platform for college students to facilitate buying and selling of second-hand products, promoting reuse within the campus community.
- Implemented secure user authentication and an admin panel to review and approve product listings.
- Tools Used: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Business Insights & Forecasting Platform

[Link](#)

- Developed a full-stack dashboard to predict customer churn and forecast sales using machine learning models.
- Engineered a live data pipeline, ensuring all dashboard visualizations and predictions automatically reflect real-time changes in the database.
- Tools Used: Python, Flask, Scikit-learn, Statsmodels, PostgreSQL, React, Chart.js, Tailwind, Git LFS.

Auri.Ai (AI Chat Chrome Extension)

[GitHub](#)

- Developed a Chrome extension using React and Vite that provides a floating chatbot interface on any website.
- Tools Used: React, JavaScript, Tailwind CSS, Chrome Storage, Gemini API, GSAP

Portfolio Website

[Link](#)

- Designed and developed a personal portfolio website to showcase my projects and skills.
- Tools Used: HTML, CSS, JavaScript, Locomotive, GSAP.

Achievements

- **1630+** rating on **leetcode** ([harshuraj70](#)) with 250+ problem solved.
- **Top-rated Competitive Programmer** on **Codeforces** (with **1300+** rating) in the 2022–26 batch at NIT Puducherry.
- Participated in **Innoversité'26**, a **Hackathon** conducted by **BNP Paribas**.
- Secured the **district topper** position in the 10th board exams, demonstrating excellence in academics.

Position of Responsibilities

- Led and organized competitive programming activities in the coding club(Zero1coded) of NIT Puducherry as **Competitive Programming Head**.
- Holding **Esports Club Vice president** position, spearheaded the growth of the Club at NIT Puducherry, increasing membership by 150% within one academic year through engaging event organization.
